

Patrick Melese DVM, DACVB

Behavior Service Policies/Fee Schedule:

Welcome to Dr. Melese's Clinical Behavior Service. The following list details some of our office financial and medical policies. Please take a moment to familiarize yourself with them so that we can serve you better. If you have any questions or constraints regarding these or any of our policies or practices, please feel free to discuss them with us PRIOR TO YOUR APPOINTMENT!

- Fees have been explained to me clearly and I realize **that no exact representations are made or implied as to an exact fee total** since hourly charges apply, each case is different and behavior products or training aids may be recommended. To reiterate: Office call fees are currently **\$199 per hour (1.5 hr mini/lite appointments run \$390** but are not sufficient for most new cases-ask for details); House call fees currently **\$260 per hour (\$780 consult minimum)** plus **\$5 per minute** one-way travel time. Consultations that must be scheduled after regular clinic office hours with Dr. Melese (M-Th 9:30-5:00) if available are charged an *additional hourly rates*. **For Guidelines only-not a quote: Initial Office calls usually range between 2.5-3.5 hours and initial House calls 3-3.5 hours.** An in-office routine recheck appointment is currently \$199 (typically 45-50 minutes) and 1st recheck usually 1-2 months after initial visit. A routine telephone recheck is currently \$175(<30min) -\$199 (30-50 min.). **Recheck appointments are typically critical to the successful resolution of most cases, but how many and how often is very dependent on the problem, the patient(s), and the individual clients. AS OF 2010 ALL FEES ARE BASED ON E-MAIL CORRESPONDENCE AS WE NO LONGER PRINT & MAIL OUT MATERIAL VIA USPS WITHOUT ADDITIONAL FEES FOR THE SPECIAL MATERIAL AND HANDLING (CURRENTLY \$20 PER VISIT).**
- Fees may be adjusted without notice but are usually re-evaluated every 6-12 months so the recheck fees may be modestly different than listed above for the following year.

Notes:

- Appropriate family members (especially spouses) and pets should be present if possible/ practical for room size.
- **Fast** dogs for **at least** 12 hrs (24+ hrs. if not very food responsive) unless otherwise advised. **Cats only 12 hrs!**
- Bring **BEST** possible tidbits to try (human food ok); especially important if pet on special diet & to quickly tell doctor if so!
- If pet has ANY relevant important medical history, labwork done within the past 6-12 mo, or is on medications (bring), have family vet e-mail or FAX appropriate medical records to us at least 24 hrs prior to appointment or bring them with you.
- You **MUST send us at least the 1st two (signature) pages of the intake forms prior to making your appointment for us to offer you a spot** since we often have more demand for new slots than we have availability. Please **return the rest of the forms** so they arrive at our office ASAP and no later than 24-48 hrs prior to your appointment. Please scan/e-mail, FAX to Dr. Patrick Melese DVM, DACVB Veterinary Behavior Consultants at contact info below*. The history form pages that do not require signatures may be e-mailed or faxed. **Please bring original signed copy of forms to the consult.**
- Plan to arrive 15 minutes early if at all possible. In most cases, you may lose some of your valuable appointment time if you arrive late so plan for traffic, etc.
- Please bring all halters, collars (including any electronic training collars) and other training aids you have (especially head halters e.g. Gentle Leader®) for the pet even if you are not using it. Bring any medication pet is on or has been on recently.

If you have any questions about fees, please inquire prior to the consultation. Any exceptions to fees above MUST BE IN WRITING!

- **Payment is due at time of appointment**; no billing. You may pay with **cash, check, Google Pay, Venmo or Zelle but, if you choose to pay by credit or debit card (Visa, M/C or Discover), there will be an additional 4% convenience charge on amount charged to your card.** Checks not honored by bank will also incur an additional \$35 fee and you also agree to pay for any costs associated with collecting the funds to pay for the services and products you have received including an additional \$25 billing fee if your account is not paid at appointment & must be billed.
- **Since we schedule out a large portion of the doctor's schedule for your behavior appointment, we request immediate notification of any desire to reschedule or cancel a behavior consultation so that another client can make arrangements to use the appointment time. Please give us AT LEAST 2-3 business days advanced notice of cancellation. If you do not show up for your appointment or cancel with less than 2 business days (M-F) notice, you may be charged up to the full consult fee.**
- For their safety and that of others, we REQUIRE that all pets be on leashes or in pet carriers & properly restrained, especially if aggressive (basket muzzled or nylon muzzle & closely controlled on leash).

I, _____ have read the policies put forth above and understand them fully. I agree to adhere to these policies as a client of Dr. Melese's practice and my signature below authorizes any credit card charges I incur with VBC (e.g. phone appointments) or as per policy above (e.g. missed appointments).

Signed: _____ Date: _____

Dr. Patrick Melese DVM, DACVB

LIABILITY WAIVER

Thank you for caring enough to obtain help with your pet's behavior!

As the representing owner, agent or handler for the individuals who will be working with the pet(s) indicated below, I understand that many behavior therapies recommended by the doctor may involve some level of risk to the pet(s) and/or the handlers, or other people or property in spite of our best efforts to minimize them. In **some** cases, medications may be recommended as **part** of the treatment; most are human medications being used "off-label" for pets (i.e. not FDA approved for that use in that species) and it is rare for a medication alone to solve most pet behavior problems. I understand these issues and assume these risks freely and do not hold Dr. Patrick Melese DVM, DACVB, Veterinary Behavior Consultants, Pathway Vet Alliance, Convoy Eye Care for Animals or associated clinicians, agents, employees, or owners/agents for facility used to see cases liable for any injury which may occur to handlers, pet, other people, other animals or property while using their training and medication treatment recommendations. I will use my own judgment and common sense when following the recommendations to not place people, pets and property at undue risk and understand that, ultimately like any pet owner, I am exclusively responsible for my pet's actions.

FURTHERMORE, I REALIZE THAT DR. MELESE, VETERINARY BEHAVIOR CONSULTANTS AND IT'S AGENTS CANNOT GUARANTEE THAT A PET WILL NOT BE AGGRESSIVE OR CAUSE INJURY TO PEOPLE OR PROPERTY IN THE FUTURE AND THAT THE PET'S OWNER(S) AND HANDLER(S) CONTINUE TO ASSUME ALL LIABILITY FOR ANY FUTURE AGGRESSION.

Family veterinarian: _____ Referred by: _____

Behavior problems can sometime be difficult, frustrating problems to correct. The information you provide is very important for diagnosing and treating your pet's behavior problems. Please fill out this form as completely & accurately as possible ("help us help you"). If questions clearly do not apply (e.g. obedience training for cats) you are welcome to skip the question, but please answer all those possible, even if you feel it may not be relevant! Compose answers to assist the doctor in picturing what is happening (descriptive details). Please be sure to get this and other paperwork (e-mail to info@sdvetbehavior.com or FAX) to Dr. Melese ASAP (at least 24 hrs prior to appointment) and **bring the originals with you to consultation**. Videotape problem behaviors if possible if you feel they are important for doctor to see and they are likely not to be seen during the appointment. Bring tape/DVD/video file and a way to play it if not a standard DVD format! **Bring a way to audio-record the appointment (most "smart" phones have this function e.g. "Voice Memo/Voice recorder" app) and be sure you know how to use it!** Thank you.

GENERAL INFORMATION

Pet's name: _____ Dog: _____ Cat: _____ Other: _____

Age: _____ years Sex: M F Breed: _____ Color: _____ Weight: _____

| c. visitors (human or pet) | g. diet change |
| d. type of litter changed | h. other (new pet introduced, etc.) |

How did these changes affect your pet? _____

Directions to Veterinary Behavior Consultants office at the
Eye Care for Animals facility in Kearny Mesa

5040 Convoy St. Ste. B
San Diego, CA 92111

(You can get access to Convoy St. from I-52)

From Hwy 52:

Click here for: [Google map and directions](#)

The clinic is inside the **Eye Care for Animals** specialty facility on **Convoy** Street (Do NOT confuse this with the other eye clinic on ~~Kearny Mesa Road~~). Note that since there is no way to safely get to parking lot traveling North on Convoy we suggest all clients approach from I-52 (can reach I-52 from main freeways of San Diego including I-5 and I-15) and take Convoy exit going South on Convoy then, just before the Clairemont Mesa Blvd. stop light turn Right (West) into parking lot that includes the Eye Care for Animals as well as an attached Golf Shop.

You can reach the behavior **office routinely at 858-259-6115** and, *if you urgently need to reach Dr. Melese on day of your appointment (for example if you are lost or unavoidably delayed, etc.), you can call or text the office line but be sure to leave a message if goes to voicemail.* On the day of your appointment you can also call the Eye Care for Animal staff at 619-702-3937 for directions if you get lost or to have them intercom the doctor in the exam room if needed.

Obviously, you **do not need to return a copy of these directions** to our office with your other completed forms.
